

SPONSOR A WILD ANIMAL

We are fighting to save our fantastic wildlife and welcome your support. Dragonflies are on the brink of extinction and we are in a desperate fight to help them survive.

MR CHALISE, Ambassador of Nepal.

Do you want to help save these sensational animals from extinction?

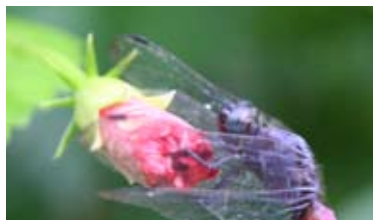

*His Excellency, MR CHALISE,
Ambassador of Nepal.*

I'm very pleased to be part of the Foundation for Endangered Species Carbon Offsetting Group (FES COG) and fully support their projects. Replanting trees is vital to Nepal, our people, our countryside, our animals and the spirit of our nation. We all benefit from this. If this project succeeds, how can we fail?

DRAGONFLY

SPONSOR AN
ENDANGERED
DRAGONFLY FOR
ONLY £3.00
per month.

This is a dragonfly photographed near a mountain stream near the Chitwan district of Nepal. Dragonflies are the oldest flying animals; the earliest of them flying above the land surface even before most amphibians, reptiles and mammals had evolved. The beautifully coloured

and smaller damselflies are related to the dragonfly family.

Many species of dragonfly are endangered throughout the world: and there are many reasons why a number of these populations are crashing. Two major ones are pollution and habitat destruction. It is a pity that many people do not know about the difficulties facing dragonflies as it results in walls of indifference.

We are losing many species, and many more are close to becoming extinct, especially those dragonflies that can only live in particular and restricted areas or habitats.

We need to monitor dragonflies that are already on the brink of extinction. We also need to conserve their habitat, and to recreate the best possible living conditions wherever possible. Unfortunately, time is running out every year and it is no longer possible to guarantee the survival of every species.

Millstream Fork wildlife garden.

FES has investigated potential dragonfly protection areas in Nepal, so that future conservation projects should maximise the prospects of saving species from extinction. Some of them could be included in the FES 'Chitwan Collaboration Project'. In the UK, FES has a wildlife garden that includes a fast flowing millstream, two ponds, and a small waterfall. We have planted dragonfly and damselfly friendly flowers. We advocate wildlife gardening to help create awareness and affection for these wonderful ancient creatures.

For only £3.00 per month you can sponsor a wild dragonfly. Just fill in the form or contact us with the details in the order form.

Sponsorship package;-

Badge; Wildlife Zone Newsletter; Photograph by Andy Mydellton, wildlife photographer worth £15.00; Invitations to special FES and Wildlife Zone events.

Once this beautiful species has become extinct, it will have disappeared for all time. For them and us, there is no second chance.

Join us and be part of our active group of workers, friends and supporters in a charity where everyone is a volunteer.

Do you want to save one of these sensational animals from extinction? If so, sponsor one of our key species and you will be doing exactly that. It is not expensive to do so. You will also know that you are not a bystander, but are pitching in and making a difference.

You can congratulate yourself that the world will be a better place because of your help.

“I’ve promoted the causes of these animals at the Houses of Parliament, the EU Parliament, and inside some United Nation’s organisations. My work has only just begun as I feel that many animals are staring down the barrel of extinction every day.”
“We can all make a difference!”
