## MACAW

This is a photograph of a Green Winged Macaw in the Amazon jungle. Most macaws are extremely large and colourful members of the parrot family. Some of them are endangered because hunters are illegally capturing these for the pet trade.

Traffickers are also earning lots of money on the wildlife black market, a massive global crime which is smaller than only gun running and drugs smuggling.

Other macaws are killed for their sensationally coloured feathers, often used for ornamental clothing. One example is the Hyacinth Macaw, a rare bird that could become extinct in the near future if this trade continues to destroy wild populations.

Sadly, we are losing many members of the parrot family throughout South America and Africa far too quickly. Raising awareness about macaw survival is important for the Western World. If we can educate the public and limit illegal trading, it will be a great success.

The consequences of this project will be that the supply will be seriously undermined. With no wealthy Western customers buying these animals, hunters will not be able to earn anything. Their illegal activities will stop and the wild populations will recover.

FES has been to the Amazon, monitoring the Green Winged Macaw and other parrot species in their original habitats. We also met Brazilian parrot conservationists at work. Furthermore we have been to the United Nations Environmental

Programme (UNEP) headquarters at Geneva and have had discussions with CITES (Convention on International Trade in Endangered Species).

FES aims to limit illegal trading with law enforcement through our membership of PAW (The Partnership for Action Against Wildlife Crime). In the Wildlife Zone we are raising awareness of illegal trading, hunting and trafficking.

For only £10.00 per month you can sponsor a wild bird. Just fill in the form or contact us with the details in the order form.

### **Sponsorship package;-**

Badge; Wildlife Zone Newsletter; Photograph by Andy Mydellton, wildlife photographer worth £15.00; Invitations to special FES and Wildlife Zone events.

Once this beautiful species has become extinct, it will have disappeared for all time. For them and us, there is no second chance.

Join us and be part of our active group of workers, friends and supporters in a charity where everyone is a volunteer.

Do you want to save one of these sensational animals from extinction? If so, sponsor one of our key species and you will be doing exactly that. It is not expensive to do so. You will also know that you are not a bystander, but are pitching in and making a difference.

You can congratulate yourself that the world will be a better place because of your help.

*"I've promoted the causes of these animals at the Houses of Parliament, the EU Parliament, and inside some United Nation's organisations. My work has only just begun as I feel that many animals are staring down the barrel of extinction every day."  
"We can all make a difference!"*
