*"It is imperative to save these types of animals, as wildlife is important and our global natural inheritance."*

SPONSOR AN  
ENDANGERED  
SEAHORSE FOR ONLY  
£5.00 per month.

## SEAHORSE

There are only two species of seahorse found in British waters; both of which are protected.

Seahorses are members of a magical family of animals that include pipefish and sea dragons. Throughout the world, many of the 35 species of seahorse are overfished for both the tourist and the traditional Chinese medicine trades. In Hong Kong, for example, seahorses are worth up to \$550 per pound, which produces huge profits and leads to overfishing.

The consequences are that seahorses are left with fewer viable populations in sporadic colonies.

Because there is little or no protection to 'core populations' (ie the animals that have escaped capture), many colonies throughout the world are continually threatened.

The majority of species are in serious trouble and desperately need urgent help. We need to protect these colonies from overfishing by creating marine nature reserves that will allow only licensed fisherman the right to catch a limited stock. It has already proved to be a successful strategy.

***Coral Reef***

Fishermen will then legitimately 'harvest' nature's excess, gain a permanent and sustainable income and preserve the species' core populations.

The Wildlife Zone & FES are both now members of the United Nation's Intergovernmental Oceanographic Commission (IOC) and add weight to protecting marine animals, especially seahorses. FES also uses the seahorse as the Coastal and Marine Project (CAMP) logo. We have adopted Rottingdean beach in Sussex (a Site of Special Scientific Interest) as part of the nationwide beach-cleaning project where British seahorses live. FES aims to work through the IOC and to monitor British seahorses at Rottingdean and elsewhere along the British coastline.

For only £5.00 per month you can sponsor a wild seahorse. Just fill in the form or contact us with the details in the order form.

Badge; Wildlife Zone Newsletter; Photograph by Andy Mydellton, wildlife photographer worth £15.00; Invitations to special FES and Wildlife Zone events.

Once this beautiful species has become extinct, it will have disappeared for all time. For them and us, there is no second chance.

Join us and be part of our active group of workers, friends and supporters in a charity where everyone is a volunteer.

Do you want to save one of these sensational animals from extinction? If so, sponsor one of our key species and you will be doing exactly that. It is not expensive to do so. You will also know that you are not a bystander, but are pitching in and making a difference.

You can congratulate yourself that the world will be a better place because of your help.

*"I've promoted the causes of these animals at the Houses of Parliament, the EU Parliament, and inside some United Nation's organisations. My work has only just begun as I feel that many animals are staring down the barrel of extinction every day."  
"We can all make a difference!"*
